

OUR MISSION

At The British School of Malaga, we commit to helping students develop life competencies of **Creativity, Aspiration, Resilience and Empathy** (our Core Values) that will help them thrive well beyond their time at school.

Above all, we focus on creating **lifelong learners who are curious and confident**; thereby, preparing our students for the modern world in which we live.

We place fundamental importance on **creating a learning community, where students and adults are leaders of their own learning**.

We call it ***growing our future together***.

OUR VALUES

Creativity is using our knowledge, skills, understanding and imagination to innovate and invent.

Aspiration is a strong desire, and commitment, to achieve our goals and ambitions.

Resilience is never giving up when we struggle and face challenges.

Empathy is the ability to demonstrate and share an emotional understanding of the feelings of another, and act supportively.

AMAZING LEARNING

Learning that goes beyond expectations, amazing and surprising us with its transformational impact.
